

Submitter: Christine Llobregat

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SJR28

Please approve SJR 28!

Oregon's flora and fauna can't lobby for themselves, only Oregonians can because we want healthy air and land for future generations. Don't you want the same?

Amending Oregon's constitution to include this important protection is the right thing to do for all sentient creatures. Please refer this measure to the general election ballot for all Oregonians to decide upon.

Thank you.
