

Submitter: Coen Kramer
On Behalf Of: Dragon boats and other water sports
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB301

Testimony

I do dragon boats, which is on the river, and as a teenage resident of Portland I know how important it is to have safety regulations for any motorized vehicle, whether or not it is on the road. There are many people who do water sports that have disabilities that make it dangerous when a boat or other recreational activity capsizes, and with these large speedboats going by, the wake created by these boats makes it much harder to stay upright. So please oppose this policy for the safety of portlanders.
