

Submitter: Peter Bergel

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1067

Members of the Committee:

The Covanta incinerator's emissions were dangerous to those in the vicinity and we in Salem were unable to do anything about it because control was vested in the County, which did not act.

As is well-known, Sen. Patterson has an over-riding concern about all aspects of health in our area and our state. Her sponsorship of this bill is all you should need to persuade you to support it.

Please pass SB 1067 to the floor with a do-pass recommendation.
