Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

My name is Cat and I am a resident of Southeast Portland. I am writing to you today about the urgent need for action to protect the fundamental right of every Oregonian to a clean, safe and healthy environment.

Southeast Portland is an area abundant with families of all ages. Although I have yet to be one myself, I see young parents every day showing their children all there is to love about being outside, even within the bounds of the city. I hope the public land they will inherent brings them the solace that we receive from it today.

Thank you for all the work that you have done to endure a clean and safe future for us all.
