Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

I oppose this bill for these main reasons.

A 72 hour wait will cause a person in need of defence that cant be provided by the police to be vulnerable. Especially women and minority groups

"Rapid fire devices" can be misused to describe any semi automatic weapon out there.

Municipal property can be a blanket statement for any public property and could leave people vulnerable in areas where they need to defend themselves is a high possibility

If you cant trust an 18 year old to be old enough to purchas a firearm then they also shouldnt be old enough to be conscripted, vote, have medical freedom, or any other rights and responcabilities that are expected of an of age adult.
