

Submitter: Chris Chenoweth

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

Quit wasting our taxpayer money on bills that will just end up being tossed into the court system and cost hundreds of thousands of dollars to eventually lose in the Supreme Court.

That's literally the definition of irresponsible government policies.

Please get stuff done that will actually have an impact on the artificial scarcity of land and on the budget busting PERS problem. You're literally batting at windmills, while the state collapses.
