

Submitter: Trish Spadt

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Stop taxing us to death. Climate change is a normal cycle primarily controlled by the sun. Carbon Dioxide feeds plants which in turn produce Oxygen. Very basic. This whole thing is just one more excuse for stealing our hard earned money. And while you're at it stop allowing the spraying of our sky's. Do something positive for people. We matter.
