Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

Good morning. I, and numerous responsible Oregonians I know, oppose this bill. Summarizing, (1) the record is devoid of evidence confirming that the bill, if it were to be come law, would produce the change its sponsors seek (there's a disconnect between the desired end and the bill itself), and (2) this bill, if passed, represents the beginning of a slippery slope, with reference to Oregonians' constitutional first amendment rights.

Please do not vote in favor of a bill where the sponsors and supporters are unable to deliver evidence that passage would produce the result they say they seek.

Thank you.

Phil Gilbert
