

Submitter: d kay

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

If you were serious about climate change you would start doing everything in your power to stop forest fires - logging, brush clearing, etc. This tax is just another way to extract money from citizens to fund who knows what. You should really have more respect for citizens and start looking at ways to cut spending and taxes. Oregon needs DOGE!
