Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

I oppose SB 243 - a gut and stuff bill that is subversive and is unconstitutional. We have background checks in place already. Oregon is at a deficit in its budget. To create a redundant process is a further waste of money and better spent on mental healthcare, housing, better education system, forest fire reduction, etc., etc. If one is truly concerned about suicides look at the cause of the distress and mental illness; our terrible drug laws for one. It is time to show Oregonians that you actually care about the real problems and not create more problems.

I urge one and all to OPPOSE this horrendous bill.
