

Submitter: Shannon Berlant
On Behalf Of: Myself
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB1187

Oregonians don't need more wasteful government spending on "climate" related anything! We need to keep energy costs down and do a better job of managing our federal and state forests. We need to stop tearing out dams and do a better job at capturing water in reservoirs. Please ban chemtrails and other weather modification instead - those are literally poisoning everyone's air, water and soil!
