Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a supporter of Oregon Senate Bill 210, I strongly believe that making in-person voting the standard method strengthens our elections. In-person voting reduces the risk of fraud by requiring voters to be physically present, ensuring greater security. It also provides immediate assistance from election officials, helping every voter cast their ballot with confidence. Additionally, it fosters a sense of community, uniting us in a shared civic duty. The bill's picture ID requirement further enhances integrity by verifying identities, while mail-in options ensure accessibility for those who can't vote in person. I urge you to support SB 210 for secure, accessible elections.
