

Submitter: Julie Pomeroy

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

I support SB243. I believe that the very wise authors of the Second Amendment for the right to bear arms could not foresee the creation of certain deadly weapons which are now on the streets of our nation. These would include automatic weapons, ghost guns, and guns that I can't even imagine. There have been murders and shootings since the creation of firearms but none as horrifying and senseless as the mass shootings now possible with automatic weapons and the ease of obtaining these kinds of weapons. Please pass SB243 and protect Oregon citizens of all ages.
