Senate Committee On Rules

Measure, Appointment or Topic:

SB210

If this law is passed, it will make it near impossible for the hundreds (if not thousands) of disabled, elderly, and immunocompromised people in Oregon to cast their vote on Election Day. I believe that all people should be able to have their vote tallied and voice heard and accounted for. I believe that the mail in ballot system helps voters to cast their ballot safely, without external pressure of opposing organizations who historically have bullied, harmed, and tried to sway or outcast voters. This system of voting in Oregon has worked for well over the decade I have lived in Portland and as a disabled person, I cannot imagine accessibly voting otherwise. Thank you.
