

I support this bill, if fact it does not go far enough, in my opinion.

I am concerned for the safety of my family, my friend, neighbors, town, and for all Oregonians. Since , sadly, they are available, I support raising the age to buy assault weapons to 21, because I know that 18-20 year-olds commit a disproportionate number of gun related homicides.

I support this bill because I believe those posing a danger to themselves or others, do have opportunity to acquire guns, and should be given time to cool off before obtaining a weapon.
