Measure, Appointment or Topic:

SB210

I strongly opposed this bill. There is no evidence that Oregon's current election system is insecure or broken. This bill's only use is to make it more inconvenient for Oregonians to vote in an informed manner. When I vote I sit down with my ballot and laptop and spend an afternoon deeply considering my options. If I was forced to vote in person at a ballot, I would not be able to make such informed decisions, which would make our states democracy weaker.
