Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

Dear Senate Committee on Rules,

As a parent, I am deeply grateful to the members of your committee and legislators who have stepped up to co-sponsor a ballot referral for a constitutional amendment for a healthy climate.

At a time when federal clean air and other programs are under grave threat, my family is heartily in favor of giving Oregonians the chance to vote to give all children hope for a healthy future, respect Tribal obligations, and advance our state's role as a leader in clean technology innovation.

Thank you for your consideration,
Noelle Studer-Spevak
