Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a disabled voter, Oregon's vote-by-mail system has been indispensable for me, and the documents provided ahead of time have allowed me to make an informed choice with plenty of time, which is invaluable as someone whose disabilities make taking actions difficult and slower than most. This system works perfectly well as is and does not need regressing back to a focus on in-person voting as long as that option is still available for those who prefer it. I strongly oppose this.
