

Submitter:	Taylor Vogel
On Behalf Of:	OREGONIANS
Committee:	Senate Committee On Judiciary
Measure, Appointment or Topic:	SB243

This does not protect anybody, this is a bill packaged as a means of more comprehensively protecting the citizens of Oregon, but there's absolutely no good faith arguments that can or are given using actual factual statistics.

This is not to protect, this is to serve special interest groups. The language used is conveniently vague and facilitates targeting law abiding citizens, who have already gone through a background check and have proven to be responsible gun owners.

Let us vote on this. This is something we should get to vote on.
