

Submitter: Jeanie Dick

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB80

It is extremely important to me that we manage our water and other natural resources in a way that enhances public health, rather than jeopardizes it. These large farms cause a huge amount of pollution, as well as confining animals in a way that is detrimental to their own health and natural needs. Please support the prohibition of permits to these animal feeding operations located in ground water management areas.

Thank you!
