

Submitter:

Ian Brook

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

For many problems in society solutions are not easy to find, because the problem is not well known. Oregon needs to focus on addressing mental health and not continue to lay blame of gun violence on legal gun owners. You can go to almost every town in Oregon and see the problem with many issues in today's society, mental health and drug issues. Please focus our resources on the real problems please.
