

Submitter: Michael Douglas

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

I oppose this SB 243 on the account that imposing further gun restrictions while individuals within this country are abducted and taken to El Salvador without due process is subjecting Oregon citizens face delayed responses to inevitable atrocities that require self defense. I would ask that this public safety measure be delayed until each individual in this country have their constituted rights protected.
