

Submitter: Chris ORourke

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

None of this makes us safer. This bill ensures that those who need a firearm for self defense must wait for an additional period and approvals to be entitled to their 2nd amendment rights. I'm a strongly liberal voter and firearm owner. Common sense gun reform is necessary. This is neither common sense nor sound legislation that betters Oregonians lives. This needlessly adds oversight that historically has led to less approvals for minorities and a blind eye for those red flag laws now target.

Freedom means not stripping others rights because you dislike them, this bill strips rights for nothing more than theater at a time when Oregonians are increasingly targeted by rightwing media as some sort of evil. Don't disarm us when under threat, especially if you fundraise based on the risks of the administration in dc
