On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3870

I support the allocation of \$2.5m for the City of Mosier's request, which will be the final piece of funding needed to complete the Mosier Center Project. Mosier is a beautiful town that welcomes tourists who visit the Gorge year round. The Mosier Center project will provide badly needed infrastructure for the fire department and other emergency services. I really love this town, but the downtown especially needs help building capacity for community spaces. This will be a great economic development tool for a town that receives a lot of visits from tourists. The emergency services need in this part of the gorge is high. It seems like there is a wildfire every summer. The conditions keep getting drier and we need a strong fire department.
