SB210

Hello, I am a Long time resident of Oregon and have my whole family here. I strongly am in Favor of reforming Oregons Voting law to In Person only moving forward as the decades of voter corruption must come to an end. Oregon for decades now has operated in a privatized way with the Democratic Party controlling our policies in a underhanded and unsafe way, it's time that now, for all Oregonians, that we have the ability to make Our State Elections fair and correct. To Know, that we are in fact voting and there is no one trying to control our votes will be the New Stronghold to reshape how Oregon is ran moving forward, together we can make Oregon Stronger Again with this In - Person Transparency. Thank You
