

Submitter: Jeremy Lee

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

Senate Bill 243 imposes unconstitutional restrictions on the rights of law-abiding citizens without effectively addressing the root causes of gun violence. By infringing upon Second Amendment rights and creating unnecessary hurdles for responsible gun owners, the bill unfairly targets individuals who follow the law while failing to deter criminal activity. Rather than penalizing law-abiding citizens, lawmakers should focus on initiatives that enhance mental health support and combat violent crime to create meaningful solutions that protect public safety without compromising constitutional freedoms.
