

Submitter:

John Simutis

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

No one is REALLY checking ballot validity in Oregon.

No doubt, most are fine, but without verification, we are experiencing a well-deserved climate of uncertainty and suspicion. We deserve not only the assurances of probity, but a verifiable path to trace registration and ballot integrity. PROVE it is safe.

Please vote for this measure to be added to the ballot; I will vote in favor of it when it appears.
