Measure, Appointment or Topic:

SB210

I fully support in person voting. There is a lack of trust in Oregon's voting system. I for one highly doubt the integrity of mail in voting along with counting votes days beyond the initial date of voting.

We need to get back to system that is simple and straight forward. In person voting with ID does just that. It will restore integrity to Oregon's voting once again.

And that should be important to every single elected official.
