Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please end vote by mail. All of the lies corrupt politicians and unelected bureaucrats use to keep vote by mail are now exposed. Vote by mail ensures that the voters voices will never be heard and single party rule continues as long as they want. People I know have received ballots in other people's names that have not lived at the residences and who voted in other states, allowing fraud in that way. People I know who voted by mail went to the check my ballot site and it said ballot not received. To send ballots in the mail is also risky. Many postal workers are part of left wing political activist groups and are on video all over the country either destroying or tampering with mail and ballots. This is not acceptable and is absolutely unconstitutional. Our right to secure and fair elections ends with vote by mail. Anyone who opposes ending vote by mail has either been misled or they are corrupt and fraudulent themselves.

Thank you for your time.
