

Submitter: Tyler Judd
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB243

I strongly oppose this bill.

I oppose this bill first and foremost because if passed, those who facilitate the passage are in my eyes committing treasonous acts under the guise of civil service to the people of this state who pay their wages whilst they falsely claim to represent the people, and who blatantly defy their oath taken to the constitution both to the state of Oregon and to the United States of America.

Secondly, I oppose this bill due to the devious way it has been written, then amended, with egregiously unconstitutional effects on the people of this state, with the real consequences not set in plain sight of the average citizen who may try to access the full extent of this bill under its number.

Tertiary, I oppose every aspect of this bill which has been pigeonholed into the shell of what may have, at one time, been a legitimate bill of the congress of the state of Oregon. As not one part of it is just, fulfilling of any act for the good of the people, or truly providing any legitimate protection to the safety and wellbeing of the people. If anything this will prove detrimental to all of the aforementioned goals of a safe and free state.

Quaternary I oppose this bill due to the wasted time and tax dollars that must have been spent to put together such an over reach of tyrannical legislation whilst keeping it out of plain sight of the working tax paying people, by the people who purportedly work for the people of this great state who they should serve.

I oppose this bill as would any citizen who was granted the ability to see the full implications in the plain text of the bill as it should be.
