SB243

I stand firmly opposed to this bill. It has far-reaching, and unacceptable implications to those of us who lawfully carry a firearm for the protection of our family. This creates an unintelligible patchwork of legal grey areas, making it incredibly difficult to know where we are allowed to lawfully carry our firearms. We are not in a position politically where we should be restricting the peoples' rights to arms, and this bill is an aggressive overreach, with unacceptable ramifications to law-abiding citizens. Stop trying to restrict our rights to arms. This is not acceptable, and the outcomes of these right-restricting bills will determine my vote in the next election cycle.
