Measure, Appointment or Topic: SB243

Generally I am supportive of gun control measures, but this measure is too much, too fast, and at the wrong time. The components I am particularly opposed to are the increased limitations on where guns can be carried and the age restriction on owning firearms. I feel that it would cause otherwise law abiding citizens with conceal carry permits to become felons, and would unnecessarily limit young emancipated adults from firearms that could be used for recreation or self defense. I am not opposed to the 72 hour waiting period.
