

Submitter: Spencer Lennard  
On Behalf Of: HB 5009  
Committee: Joint Committee On Ways and Means Subcommittee On  
Natural Resources  
Measure, Appointment or Topic: HB5009

Dear Legislator,

I am writing as a resident of rural southwest Oregon living adjacent to vast and heavily managed private forest lands.

I implore you to please support HB 5009 and assure that it is fully funded.

A vast component of at risk species and their habitat is located on privately owned and managed private forest lands.

The legacy of clear cutting and herbicide use has has tremendous adverse effects on fish, wildlife and humans.

It is critical that you focus on HB5009 immediately.

Sincerely,

Spencer Lennard
