Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

I am a father of a 9 and 11 year old and a teacher. I worry about a school shooting every day when I drop my daughter off at her elementary school. I position my own desk in the classroom in a way that I can quickly get to the door to prevent an armed intruder from entering. My oldest child identifies as transgender. I worry for his future in a society that attacks trans people and is so well armed. Simply put, I am a concerned citizen who wants to feel safer in my community. Please support this bill. It may inconvenience some gun buyers and it may also save lives.
