

Submitter: Bryan von Domitz

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

As a lifelong liberal, I've supported many gun control measures. Unfortunately, the recent behavior of the federal government has made me rethink my opinions about the second amendment and what it means for everyone in our state. I desperately want to avoid accidental injury and death, limit possession for people with violent tendencies. However, I also think it's important to encourage those who are law-abiding and willing to work within the system for proper background checks to be able to own a firearm without significant barriers.
