Measure, Appointment or Topic:	SB210

I support in person voting, because there is so much fraud, and illegal actions taken in our current mail in voting system. There is proven fraudulent voters ballots, going to active voters that are deceased, moved out of state, or attending college. I have read in these comments that the elderly don't want to go to their polling place. I'm sure there is mail in voting that they could participate in if they do not want to leave their homes. We can tell that there's fraudulent voting because there has not been a Republican governor in 40 years. The other problem that the state has is the gerrymandering of the boundaries for the voting district. We know that when we do our research, we can see that they are heavily padded with Democrats in them. There is a lot of funny businesses going on with our elections. And it needs to stop. We need to go back to in person day of election with ID voting with Hand Count the night of the election. And voter registration should be something a person chooses to do, not forced on them against their will by the DMV, or DHS. I support this bill and encourage you to support this bill as well.
