

Submitter:	Ambrose Holtham Keathley
On Behalf Of:	OSLP
Committee:	House Committee On Early Childhood and Human Services
Measure, Appointment or Topic:	HB2150

To the Oregon Legislature

I love my job and the people I provide support for. Unfortunately myself and many others of us have families and cannot afford anything other than base necessities, and providing a critical service to the community but being unable to take a vacation or buy organic food for our children, or pay for extra curricular activities, seems like a slap in the face to most of us.

We do deserve a living, rather than a surviving, wage.
