Measure, Appointment or Topic:

SB210

The clear effect of this bill would be to restrict access to voting by eligible citizens. Seriously? Maybe you would really rather have a bill that declares only white male property owners should be able to vote. But even now in this second Trump regime, you cannot get away with that, Mr Smith. The US electorate are not going to allow you to push us back into that box, no sir. Secure elections is a red herring for eligible voter exclusion.
