Measure, Appointment or Topic:	SB210

Mail in voting needs to stop. There is no security, chain of custody or even verification that the person delivering the ballot is the person who the ballot was mailed to.

Mail out the ballots as is currently done so people have the time to ponder the issues & candidates to make to make informed choices. Delivery of the ballot should be in person and with real ID. A Citizen could drop their ballot off anywhere that's convenient to have their delivery recorded and have their hand stamped. This would eliminate any possibility of fraudulent voting.

It would take much less time than going into a booth and filling out a ballot. A person would not be under any timeline to fill out the ballot since they can do it at home, without having to bring a reminder sheet into the booth.
