

Submitter:

Mary Smith

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I introduce myself as a disabled senior with two types of cancer, kidney and blood cancer. I use a walker and I don't drive. I make it to the polls every time!

As an American, I think showing up at the polls is a responsibility. Voting is a responsibility. We should take pride in showing up to vote, we should know what we're voting on, and for.

This apathetic way of voting brings about apathetic results. This is one of the most important things we can do as an American, and if you're not willing to go out of your way to vote, you probably won't go out of your way to learn the issues or the candidates.

Not to mention the theft from mailboxes and the mail carriers that dump them in remote places so they can relax (I actually know someone who did this at the Albany Post office).

Please vote to abolish mail in voting. Bring trust and responsibility back to Oregon.
Thank you, Mary Smith
