Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I believe in person, same day voting with a valid identification is crucial to restore free & fair elections. I believe this will restore confidence & transparency to a voting process that has become muddled in a lack of faith in how long the counting takes, & who's in charge of signature verification or lack there of.

With the nationwide issues at stake an identification like needed for driving, buying firearms & alcohol is necessary.

That can only be achieved by a in person vote.
