SB210

I strongly support this bill. We need to return to in person, one day voting, with voter id. Our voter rolls are so egregious and dirty-they are out of control! Judicial Watch is suing Oregon for our bloated voter rolls, one of the worst in the country! We are out of compliance with federal law that voters should be removed from the voter roll after two federal cycles. We've got to clean this up! Oregon has more people registered to vote of voting age than we have people in the census. We have several people on our voter rolls over the age of 114 (the oldest age of a person currently alive) currently on our voter rolls!! How can this be? Every fraudulent ballot cast is disenfranchising our vote! Even our own Governor admitted illegals are voting in our elections and halted the DMV from using automatic voter registration. Voting by mail is littering the streets with ballots, making it easy for anyone to take advantage of the many ways are system has failed us! Our votes are being disenfranchised! We know longer have confidence in vote by mail for the whole population. EndVBM allows for those who need to request vote by mail- it stills allows for those who need it. This is reasonable. But not everyone should vote by mail. We've got to fix this hot mess. Let the voters decide. If you accept this to be on our ballot, you can use this as a way that our State Government is complying with the executive order that has come down in recent days from the President. Reject this and risk losing federal funds for being negligent and disregarding the sanctity of our vote and the voice of the people. It's time to reform and clean up our voter rolls! Put this on the ballot and let the people decide!
