Measure, Appointment or Topic: HB3884

I am an Oregon registered voter. I oppose HB3884. I oppose additional gun restrictions, we have firearm restrictions in place that aren't being enforced now adding more will solve nothing. The limited funding is (according to the news) going to get worse and adding this study to State police duties, where is the funding coming from. The gun restriction laws don't help the violence. Attending to the person and the reason they are violent is where you should be looking.
