Measure, Appointment or Topic:

SB210

I strongly oppose the bill to require Oregonians to vote in person. Oregon has had safe and secure vote-by-mail for decades and the wishes of federal politicians to meddle in our voting system is an attempt to manipulate results. Requiring votes in person is punitive to those who work, are at college, are elderly, and who cannot physically get to a voting center. To respond that those people can all vote by absentee ballot is the point. We already have that right and it is called vote-by-mail. Please rule against this blatant power grab. Thank you.
