As a long time hunter and gun owner, I believe that this bill punishes law- abiding citizens while ignoring the reality that most gun deaths in Oregon are suicides, not homicides. Instead of ineffective restrictions, we should be addressing the root causes— mental health and violent crime. We don't restrict or take away the cars or drivers licenses of law abiding citizens because a few drunk drivers get behind the wheel and kill innocent people. It's not the cars or guns that kill people!!
