Measure, Appointment or Topic:

SB210

I strongly support a return to in-person voting, with proof-of-citizenship. Anything else marginalizes my vote.

Oregon's vote-by-mail system is rife with fraud and corruption. It also violates Federal law, which states that there is a single voting DAY. Further evidence of corruption is the lack of proper voter roll maintenance, which I, personally, have found. Also Judicial Watch's lawsuit, showing voter rolls are filled with ineligible voters. Vote by mail allows the dead to vote! It's wrong. Stop the corruption, return to in-person voting with Identification and proof of citizenship. It is NOT trampling on anyone's "rights" to require identification; rather, the reverse is true: refusing to require ID marginalizes and diminishes the vote of the citizens by allowing non-citizens and non-residents to vote.

Return to elections with integrity. Stop vote by mail.
