Committee: Joint Committee On Addiction and Community Safety  
Response

Measure, Appointment or Topic: HB3197

I am currently in recovery I am a citizen of Klamath Falls Oregon I have been sober for 10 years I have been clean off drugs for 6 and 1/2 years my addiction started in my youth due to family members exposing me and my brother to alcohol which later LED to other substances later on in life I am in support of increasing funding and developing stronger and more effective treatment solutions for the Youth in Oregon it needs to come with mental health transitional Health Care for once they complete treatment to go back to school or to reacclimate them back into society or jobs program that they could be applicable for depending on their age and it needs to be accessible to every County in Oregon from Eastern Oregon to Western Oregon from Southern Oregon all the way to northern Oregon the money needs to be spread evenly and we've got to do our best to save the use of America that's our future
