Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I fully support to end vote by mail and have picture ID same day voting. We live in a world of most things we need to buy we have to have proof of ID. So why one of the most crucial event that effects everyone lives we do not have to have an ID to vote no proof, no accountability and no paper trail on how your vote I actually counted . We need to go back to same day voting booths with ID. Plus secure our machines so no voting fraud can happen. I support this bill.
