

Submitter: Virginia Kilkelly

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon is one of the greatest and most free states in the country because we implement systems, like mail in voting, that are made to include all Oregonians. Limiting ourselves to only in person voting is a system specifically meant to disenfranchise voters, and suppress the voices of people who are disabled, can't get time off work, or don't have resources like transportation or childcare. This is a bill that is trying to keep control of our state and country in the hands of the rich. Please don't do this to the great state of Oregon.
