Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

There are so many benefits to voting by mail, it is one of the many reasons I am proud of Oregon. Voting by mail increases voter participation, it is extremely convenient and allows more accessibility to voting especially for the hard working citizens who can't afford to take time to vote in person. I love living in Oregon and I love that this is available to our residents. I strongly oppose bill SB210 to make voting in person the normal method of voting.
